Exchange policy

of the rented object

1. If the Lessee wants to exchange the rented object or individual items, the Lessee must submit a request for such an exchange to the Lessor at least four 4 weeks prior to the desired exchange.

The request must exactly describe the rented objects to be exchanged and the purchase price of the new objects to be paid by the Lessor. Based on commercial considerations, the Lessor will decide whether an exchange is possible. If the Lessor agrees to the exchange, the Lessor will conduct another credit-worthiness check of the Lessee.

2. If the Lessor agrees to the proposed exchange, the Lessor will send the Lessee a prepared amend-ment application to the rent contract within five to seven working days of the request, which foresees that the agreed basic term of rent will be extended by the already elapsed term of the rent contract and computes the rent payments taking into account the payments still outstanding and the acquisition costs of the new objects. The Lessee indicates its consent with the conditions stipulated by the Lessor by return-ing to the Lessor the signed amendment application along with the invoice provided to the Lessor for the new rented objects.

The new basic term of rent for the new and the non-exchanged objects starts on the first day of the calendar quarter (or calendar month if monthly payments are agreed) following the of the exchange of the objects according to the new contract.

3. Not later than twenty-four (24) hours following the receipt of the new rented objects, the Lessee must return to the Lessor the objects to be replaced, unless otherwise advised by the Lessor. The provisions set out in the General Terms and Conditions of rent for the return of rented objects apply (see section 2).
